

## KEEP DEPARTMENT ON THE JUMP

### Cold Weather and Hot Chimneys Make Work For Firemen Tuesday

Tuesday was a day of fires and calls from all over the city kept the department on the jump from Tuesday morning until late that night.

About a quarter of ten p. m. an overheated kerosene heater in one of the upstairs rooms of the Palace Bakery ignited a dresser near by and scorched the walls. A fire alarm was immediately sounded and hose company No. 1, quickly responded. Being in the business district No. 2, also was on the scene. Slight loss was the result.

At ten thirty p. m. an alarm was sounded calling the department to the residence of Dr. J. M. Hogan, 175 S. Onelda Ave. An overheated furnace was the cause of what might have resulted in a very bad fire but for the timely arrival of the hose company. Fire broke through the dining and sitting rooms but was soon under control. Damage to the amount of several hundred dollars, was done. The loss is fully covered by insurance.

At eight forty Tuesday evening, hose company No. 1, was called to the residence of Wm. C. Orr, the cause being an overheated chimney. As nobody was at home it was necessary for the firemen to break in the door in order to gain admittance. Slight damage was done.

A chimney fire called the fire department to the home of Adolph Schauder on Lincoln street, Tuesday morning. No damage was the result.

## HAVE GOOD TIME

### Supper Given by Men of the Methodist Church Enjoyed by All

Among the enjoyable holiday occasions was the supper given by the men of the Methodist church, last Friday evening.

That the men can "do it right," when it comes to serving tables can no longer be questioned. That they had something tempting to serve was due largely to the very efficient service of Chief cook John Remo and his able assistants in the kitchen.

At the close of the supper hour a musical program was given, in which Mrs. Estes and Mr. Dayton each gave two solos and a male quartette also rendered two selections. These numbers seemed to stir the musical interest of the entire company and a general song fest followed in which a dozen familiar songs were sung. Considerable unused talent came to light, and men who had contended that they could not sing, found that all they needed, was a start, then it became difficult to shut them off. All voted the evening most enjoyable.

## CANNOT HOLD OFFICE

### Judge Hastings Holds Woman Is Not An Elector Therefore Ineligible

In circuit court at Green Bay Judge S. D. Hastings decided that a woman is not eligible to hold public office because she is not an elector.

He however denied the motion of Emory Gallineau of Marinette to compel Miss Adeline Pratt to relinquish the certificate of election as register of deeds.

In Ashland county, Mrs. Nellie Archibald, county treasurer-elect may be affected by the decision against Miss Pratt.

## THREE ROUND BOUT AT MURRY.

A boxing bout was pulled off last week at Murry, Wis., between E. F. Kamke of Arbor Vitae and David Arley. No decision was given but the match was decidedly in favor of Kamke. As a preliminary, Otto Yerke and Walter Fillion went three rounds. A number of Rhinelander people were in attendance.

## HOLD BANQUET IN LABOR HALL

### Local Carpenters Union Have Open Installation and Supper Tuesday Night

The local Carpenters' Union No. 654 held their second annual banquet last Tuesday evening, at Labor hall. Along with the banquet went the open installation of officers and a card contest for prizes. The following are the officers for the ensuing year:

President—Lynn Thompson.  
Vice-Pres.—Anton Hoppa.  
Recording Sec.—A. J. Schultz.  
Financial Sec.—Wm. Whipple.  
Treasurer—A. J. Germond.  
Warden—Wm. Hubbard.  
Conductor—Garrett Lee.  
Trustee—David Lensing.

The menu consisting of beef loaf tongue, potato salad baked beans, brown bread, assorted cake, oranges, bananas, apples and coffee was given. A good account of an eye witnesses' rough for the fact that the Carpenter Union has among its members those whose gastronomic facilities are in good working order.

The contest for prizes resulted in the awarding of a beautiful Nottingham calendar to Mrs. William Hubbard and Mrs. K. G. Bartlett received the second prize of a box of stationery.

John Johnson received the first prize of a silk tie and A. J. Schultz was awarded a pair of sleeve supports as a reward for being second.

Opinions are rife among the members of the lodge who were seen the next day that a number of booby prizes should be distributed but thus far nothing has been done regarding the matter. There were some seventy-five present and the festivities were continued until after twelve o'clock.

## PURCHASE NEW EQUIPMENT

### Armory Rink Is In Good Condition For Those Who Enjoy Roller Skating

F. H. Himes and R. L. Caldwell the enterprising managers of the Armory skating rink are providing the devotees of roller skating the best of accommodations for the exercise of this popular amusement.

One hundred and fifty new pair of skates have been installed and the boys will do away with the chalk usually used on such floors, sandpapering the floor in its stead thus doing away with the dust that goes with the use of chalk.

The Armory will be open Tuesday, Friday and Saturday evenings and Saturday and Sunday afternoons. In the evenings the doors will be open from 7:30 to 10:30 and in the afternoons from 2:30 to 5:30. Instructors will be on the floor at all times to assist the novice in learning and the Military band will be in attendance Tuesday evenings and Sunday afternoons.

## DURNO HERE NEXT WEEK

### Magician Coming As the Fifth Number of Rhinelander En- ertainment Course.

Durno, the magician, and one of the cleverest prestidigitators in the United States, will appear on the Entertainment Course, Thursday, Jan. 12. This number will be held at the Opera House, and seats must be reserved. The plat for reserving seats will be opened at 8 a. m. at Sawtell's book store, Tuesday, Jan. 10.

This entertainment is one of mystery and fun, and is strictly first class in every way. Reserve your seats early. There is no extra charge. Durno appears, fun begins; remove his gloves, they vanish; waves his wand, birds appear in mid-air, flowers can be seen growing, a small bowl of water is produced from a silk handkerchief, then a large one containing four palfills.

Unlike other magicians Durno is a comedian and humorist, he uses a flow of language which is full of comedy, his voice is clear and distinct, and, while listening to him one feels as if he were producing different articles and cause them to vanish.

Reproduction of old tricks performed by Durno, such as the manipulation of eggs, dolls, chickens, ducks, hats, watches, gloves, etc., are manipulated in such a way as to create rounds of applause and laughter.

Nothing but wonder and amusement prevails when Durno performs his Optical Illusion "Guess." It cannot be explained but must be seen to be appreciated. The effect of this is marvelous and causes great wonder.

## MUSIC AND STORY OF TANNHAUSER

### Rhinelander Womans Club Take Wagner's Opera As Program For Last Meeting

The Rhinelander Woman's Club held their bi-monthly meeting last Tuesday afternoon from three to five.

"Wagner Day" was the feature of the club program Dec. 20, and at Tuesday's meeting the program was devoted to the Tannhauser opera exclusively. The club paper of the day was read by Miss May Brown and in it the romantic legend of Henry of Tannhauser was taken up in detail. His love for the princess Elizabeth, his spell struck visit to the Hill of Venus, his pilgrimage to Rome to receive absolution from the unholy enchantment under which he had been cast and his final escape from the power of the sorceress by the act of the Pope, were all handled in a manner to exemplify all the beauty of this folk tale of Germany.

Interspersed through the paper was the Tannhauser music; "The Pilgrim's Chorus" by Mrs. Reardon and Mrs. Hampton; "Tannhauser March" by Miss Reardon and Mrs. Hampton and the vocal solo "The Evening Star" by Mr. Bauman, all of which bring out the fullness of the opera and made the whole a very delightful program. The sentiment for the meeting was German Opera; Sentimentally I am disposed to harmony but organically I am incapable of a tune—Lamb.

"Lohengrin" will be the subject of the next paper and will be given by Mrs. Shepard.

## ON WEDDING TRIP.

Mr. and Mrs. E. M. Dunton of Omaha, Neb., will visit at the home of Mrs. Dunton's uncle, C. L. Brown, Friday.

Mr. and Mrs. Dunton are on their wedding trip and have visited at Waukegan, Wis., Quinecote and Koss, Mich., and go from Rhinelander to Minneapolis and Chicago before returning to Nebraska.

## CHIMNEY CAUSES FIRE

### Midnight Blaze Causes Loss Of \$100.00.

The residence of Chas. Morrill on Grant St., was narrowly averted from being destroyed by fire Sunday evening. A new fire place had been installed in the house and through some oversight on the part of the mason in charge of the brick work, a small crevice was left open. The members of the family, being out for the evening, returning about ten o'clock to find an odor as of smoldering timbers prevailing throughout the house. Upon investigation no sign of fire could be discovered.

About twelve o'clock, Mr. Morrill was aroused by suffocating smoke and found the partitions around the fire place on fire. The fire department was immediately summoned and the fire extinguished. Damage to the amount of a hundred dollars was incurred, covered by insurance.

## HEAVY SNOW FALL

### Trains On All Lines Hours Late— Trouble For Train Crews

One of the heaviest snow falls of years settled over our city Sunday night and Monday morning making traffic in and out on the railways almost impossible. Snow to the depth of a foot and a half faced people as they arose Monday morning. North of us in the vicinity of Ironwood, the trains were blocked entirely. No. 116 south bound passenger on the C. & N. W. Ry. was four hours and twenty minutes coming from Ashland to Ironwood, whereas the scheduled time is one hour and twenty minutes. The train is due into this city at 10:26 but arrived about 2:00 o'clock. No. 114 due to leave here at 5:45 a. m. could not leave the yard limits without the aid of an extra engine. The train finally pulled out about 7:15, about one hour and 30 minutes late. No. 117 north bound arrived about 3:30. No. 35 Soo line, west bound passenger due at 9:10 arrived about 11:05.

On the heels of the snow came a fall in temperature with a biting wind and an average register of the mercury of five below.

## WILL INSTALL TONIGHT.

The Modern Samaritans will hold a meeting at K. of P. hall tonight in which there will be a class of candidates initiated and the officers recently elected will be installed by Deputy Imperial Good Samaritan, W. B. Henderson.

At the meeting arrangements will be made to stage the play "The Cow Punchers," which is scheduled for sometime the latter part of the month. On that occasion the play will be followed by a banquet at the lodge hall.

## JESS PUGH AND COMPANY

### Audience Pleased With the Con- cert Given By This Talent- ed Trio Monday Eve.

The late lamented Mr. Twain once said that if one wanted a sure bid for literary celebrity he must be born in Indiana.

After hearing the Jess Pugh Company Monday night one is lead to think that the above should be amended to include music as well and the Indiana and Illinois people who composed the entertainers on that occasion.

Mr. Pugh is a reader and with a splendid baritone voice, Miss Lathrop the soprano, charming and vivacious with her flute like voice of wonderful sweetness; Miss Kellogg, the violinist, who handles her instrument like a virtuoso, makes a trio of artists that are rarely found in one concert company.

Mr. Pugh demonstrated his dramatic ability in his reading of Kipling's "Light that Failed," and his singing and talking number from Luder "When I Get Back Again to Bonnie Scotland," demonstrated his talented versatility to the best degree.

Miss Lathrop has a winning personality that captivates her audience before she sings a note and her conquest is complete when in her solo work she displays the wonderful compass and purity of tone of her voice. Music lovers in her audience will not soon forget her singing of "Voices of Spring."

Miss Kellogg plays the violin as it is played by few women and her work in this line ranks high not considering her youth which gives her abundant time to attain a high pinnacle in the art in which she displays such excellent talent.

Every number in the program was encored enthusiastically and if the Jess Pugh Company ever play a return date in Rhinelander, they will be assured of a big audience.

## BIG BUSINESS IN SHIPBUILDING

### Enormous Number of Vessels to Be Built In Atlantic Ports Says Mr. Farris

"Ship building along the Atlantic coast has been slow for the past three or four years" said Mr. Farris of Foxcroft, Maine, who has been in the city for the past week or more, buying ship timbers and ship knees. "Losses by storms have been great in the past few years" he continued, "and the building of new ships while it has been delayed, is almost at hand."

In speaking of the construction of a large sea going wooden ship, Mr. Farris said that 2000 knees were often used in the building of a single vessel.

Further, the supply of ship knees in this part of the country is far from being exhausted and at the price of from one to five dollars each the ship knee business is an item worth looking after by lumbermen. It requires a good axman to work on knees but any woodsman, who knows the art falls readily into the trick and soon becomes an expert knee chopper.

Mr. Farris has been coming to Rhinelander every season for the past ten years. He will remain until March.

## ENTERTAIN WEDNESDAY EVE

Mr. and Mrs. Heine Smith of Mankato, Minn., were guests of the latter's sister, Miss Lizzie Kramer during Christmas week. Miss Kramer gave a banquet in their honor Wednesday evening. Every one present reported a fine time and voted Miss Lizzie a splendid hostess.

## BUYS BIG PAPER MILL

### Million Involved In the Sale Of Com- bined Locks Plant Near Appleton.

John Strange of Neenah, it is said, has nearly closed a deal for the purchase of the holdings of the Combined Locks Paper Co. at Combined Locks, four miles below Appleton on the Fox river.

This is one of the most important paper mill sales in Wisconsin in many years, the Combined Locks being the largest in the United States and the deal will involve a transaction of nearly a million dollars. There is also a pulp mill with a daily capacity of 100,000 pounds of ground wood and 50,000 pounds of sulphite fiber. In an interview Mr. Strange said, "I was greatly surprised to find the mill in such first class condition after my first inspection. There have been great improvements made there this year and I consider the plant in first class shape in every particular. Very few changes will be necessary."

## BIG BUSINESS AT POST OFFICE

### Worth While Gift Buying Mark- ed the Season—32,000 Post Cards Handled

It is estimated by the post office employees that 17,000 post cards were mailed in the month of December at the Rhinelander post office.

Of course without the aid of canceling machines there can only be an estimate given but it is fairly safe to say that this number of greetings of the season went out from the home office in the month just past.

Further, the estimated number of cards received were 15,000 making a total of 32,000 cards handled.

Taking the stamp sale for a basis on which to figure there were at least 1,500 packages sent out and 2,000 packages received. The probable population that receive the mail at Rhinelander is in the neighborhood of 8,000 therefore an average one in every four must have received some gift from outside friends, and nearly one in every four sent out some present to a friend far away. The package mail was markedly heavy to the individual package, people seeming to buy things that were worth while and the local merchants voice this opinion, by saying that gift givers purchased better quality this year than ever before.

In December there was an increase in registered mail sent out of the office by 73 pieces, a total of 354 pieces being made up here during that month. Packages of all descriptions were done up with care and very little trouble experienced by the postal people in handling this class of mail outside of the great volume which was more than ordinary causing requests for additional sacks to be sent to Milwaukee on a number of occasions.

The increase of business in the office for this year over last was \$2046.27 and the total business done in 1910, \$17,739.23.

## CELEBRATE THE NEW YEAR

### Scandinavian Hall the Scene of a Very Pleasant Event Saturday Evening.

The Scandinavian New Year was celebrated at Scandinavian Hall last Saturday evening and the company present saw the old year out and the new in, very pleasantly.

Bruso's orchestra was in attendance and a part of the time was given over to dancing. Then speech making was in order and Mr. Spelbreed acting as chairman introduced Mr. W. B. Henderson of Emlath, who gave the New Year's greeting and spoke for a time on the Scandinavian race in America.

Mr. Helgetreit spoke in Norwegian of Norway, the Norwegian parliament and of its being the first legislative body to recognize the right of women to vote. Every one present enjoyed the evening to the utmost.

## URNS DOWN ASHLAND

City Loses Its Fight With Lake Carriers—Work For Congress.

The Interstate Commerce Commission has handed down a decision at Washington, D. C., in which they decide against Ashland in its effort to get the same rates by lake that are enjoyed by Duluth and Superior. For a number of years any shipments of freight from the east consigned to Ashland merchants, when it came to Ashland by lake, has been carried to Duluth by boat and then reshipped to Ashland by rail and the rail rate added to the lake rate. The commission holds that their authority to change unjust rates does not cover vessel lines. This being the case, here is a chance for congress to make vessel lines come under the law.

A White Man's Laundry For White Men

No. 11 South Brown Street 'PHONE 67

In making this my bow to the people of Rhinelander as an advertiser in these columns, permit me to assure you that even if I have not mentioned the matter before, I have appreciated the business given me and favors extended during the past seventeen months, in which I have been a member of the firm operating the ONEIDA STEAM LAUNDRY. I trust that my future management of the business as sole proprietor, will meet with as cordial a response in business as has been enjoyed in the past, and that many more will see their way clear to patronize "a white man's laundry."

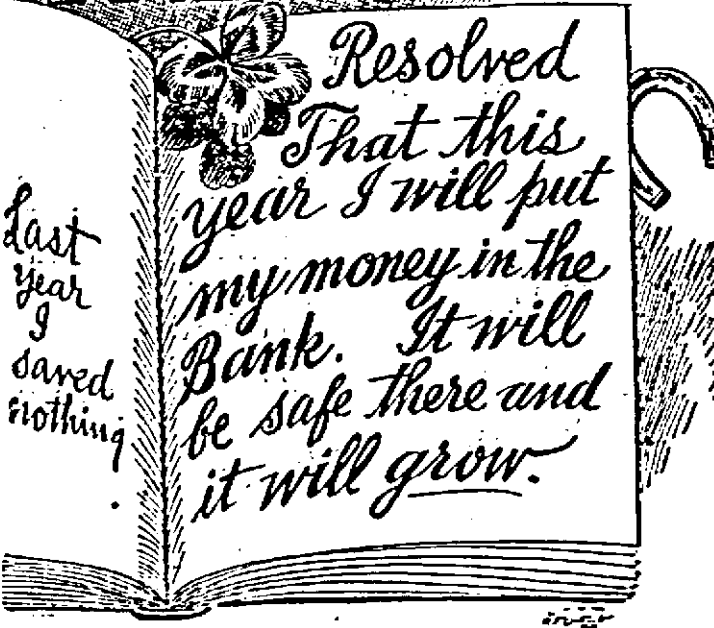

Realizing that there may be some difficulty to overcome in starting my delivery department on a plane equal to its past efficiency, we ask your indulgence for any errors or oversights that may occur on that end, for a few days. Should your bundle be overlooked, call us up by 'phone—No. 67—and we will call. Family work received up to Thursday afternoon and bundle work received up to Friday morning, nine o'clock, will be finished and delivered the same week.

With the assurance that every effort will be made to please you all, and the announcement that I will have something of interest to say to you each week in these columns, I am,

Respectfully yours,

The Chicago Record-Herald is authority for the statement that the legislature of Wisconsin is going to remove Senator Stephenson from office for his corrupt campaign of two years ago. It is too good to be true.

The County Officers took their respective positions Tuesday. It is not necessary to say anything of those who have served so well for years, neither is it necessary to comment on the qualifications of the new officers; their fitness for their respective positions has already been dwelt upon in this paper. The one notable fact is that every county officer is a republican.

### WILL WONDERS NEVER CEASE

When it was first given out that Senator Lorimer was to be whitewashed by the investigating committee, word came from Washington that La Follette, Cummins, Borah and Beveridge were going to attack the report. And now word comes that even President Taft is scared and is going to take a hand against Lorimer with the insurgents. Surely, the President will feel out of place along side of La Follette, Beveridge and Borah, after his faithful cooperation with Aldrich, Cannon and Ballinger.

### APPOINTS PRIVATE SECRETARY

It is now Governor McGovern. We believe Mr. McGovern goes into the governor's office without a pledge to anyone except the entire people of the state to do his best for their interests. He was a splendid district attorney; he was bold in his utterances as a candidate for governor, and we have confidence that he will make good.

He has appointed an old school man as his private secretary, Duncan McGregor. Mr. McGregor served as president of Platteville normal twenty-three years, then an assemblyman the past four years and now at the advanced age of seventy-two he takes the office of private secretary to the governor. All good citizens must be pleased with his appointment.

### MUST WALK TOGETHER

In an article we wrote last week on the mutual relationship of labor and capital, we are called to account by one of our readers. He tells us capital is not a necessity for production.

Of course the old political economists tell us the universal requisites are labor and natural resources, but as far back as the great economist John Stewart Mill, capital was recognized as an essential to production. Mr. Mill says in his Political Economy, "There is another requisite with out which no productive operations beyond the rude and scanty beginnings of primitive industry are possible, namely a stock previously accumulated of the products of former labor. In these days of modern methods of industry, Mr. Mill's statement is most emphatically true.

### VOTE TO BOND CITY

Important business was done at the regular council meeting Tuesday evening. The council voted to bond the city for fifty-five thousand dollars and pay all indebtedness against the city water works, and stop the legal action which has been going on the past three years. Shortly after the suit began, the federal judge issued an order requiring the city to lay aside the amount of the hydrant rental agreed upon which they have done. The city now pays ninety thousand dollars (\$90,000.)

As we understand the matter, the city is paying about the same including legal fees that they would have paid had the vote of the city been favorable to the purchase before the suit began. The bond holders wanted seventy-five thousand dollars for their claims at that time. When the suit began, Attorney Green hoped to get important evidence upon the original cost of the plant which failed to materialize upon the witness stand. Consequently every point for which the city contended was lost.

Those who have been active in the final purchase think the city exceeded

ingly fortunate in the settlement. As the bonds are arranged the water works will be paid for in March, 1912, the first bond becoming due in March 1912.

This must necessarily delay the erection of a new high school building; but the officers in charge of this matter saw no way to avoid this step. The only important business done at the council meeting besides this was taking advantage of the cash payment on the new steam roller and paying two hundred and twenty dollars on the purchase price. Now that the water works question has been disposed of the city should take steps to reduce the cost of electric lights both to the city and private consumer. We are fully convinced if the matter were argued before the railroad commission, the result would be cheaper lighting for Rhinelander.

### VICTORY FOR FREE SPEECH

The government on Tuesday lost its fight to bring the Press Publishing company, publisher of the New York World to trial for alleged libel of Theodore Roosevelt, President Taft and others in connection with the purchase of the Panama Canal.

The supreme court ruled that the federal courts were without jurisdiction and sustained the action of the lower court, quashing the indictment against the Publishing company.

The Press Publishing company, publishers of the New York World, was indicted in March, 1909, in the circuit court of the United States for the southern district of New York on a charge of libel.

In effect, the libel was the publication of articles stating that Charles H. Taft, Douglas Robinson and William Nelson Cromwell, with J. Pierpont Morgan and others, obtained control of the Panama canal route for about \$3,000,000 and by the co-operation of Theodore Roosevelt, then president of the United States and brother-in-law of Mr. Robinson, and William H. Taft, then secretary of war and brother of Mr. Taft, were enabled to effect the sale of the Panama canal to the United States at a profit of \$35,000,000.

The United States claimed jurisdiction to punish the alleged libel on the theory that the publisher had committed a crime upon federal territory, West Point, New York and in the postoffice building in New York City.

Any broad minded man must rejoice in this decision. When it gets so that newspapers cannot boldly inquire into the act of and criticize public officials, that minute we have taken a step towards curbing free speech.

Inwardly the newspapers that want the other fellows punished for libel are those who are free to attack their enemies, and wish the right to be most scurrilous in their own columns.

The safety of the American republic is in the freedom of the press. One blot against the administration of Theodore Roosevelt is that he should have ever begun the suit against the newspapers in this case.

## WANT TO ENFORCE OLD TREATY

### Anti-Saloon League Petitions Department to Enforce Chippewa Pact

It is putting it mildly to say that the liquor interests of this city are watching with much anxiety efforts of the Anti-Saloon League to force fourteen counties of northern Wisconsin into the dry ranks by reviving an old treaty of the U. S. government with the Chippewa Indians.

Already the Anti-Saloon League has taken active steps in northern Minnesota and now they are moving upon the territory of northern Wisconsin. For months they have been giving out the idea that they had something to spring and we understand the final blow is being struck.

The League forwarded Friday to the department of the interior at Washington its petition asking the department to enforce the terms of the treaty with the Chippewas, which it is claimed makes unlawful the manufacture or sale of intoxicating liquors in fourteen counties of northern Wisconsin.

The petition is backed up by petitions from churches and temperance societies in northern Wisconsin, where a hard fight has been in progress for two or three years past over the traffic in liquor with the Indians.

"The full data on this treaty will be found in the report of the Bureau of American Ethnology, part II, vol. 18, in the Milwaukee public library," said Supt. U. G. Humphrey, of the Anti-Saloon League, Friday.

"Plate 264, map 261, shows the exact boundaries of the territory in Wisconsin which is affected."

Effects Far Reaching, He Says.

Mr. Humphrey says: "We also claim that the same condition may attach to other treaties and thus apply to nearly the whole of the state of Wisconsin, including Milwaukee, but for the present we will concentrate our efforts to the limits shown in map 261 and described in the Free Press of last Friday. We will look up the other treaties later."

"The liquor interests are attempting to secure interference from congress in the enforcement of the exact terms of the Chippewa treaty, but the temperance side is bringing strong pressure to bear to secure the law's enforcement, particularly in regard to northern Wisconsin."

"The manner in which the liquor interests have preyed on the Indians there is shameful. They have bootlegged on the reservation until nearly every term of court at Milwaukee, Madison and La Crosse has seen the indictment of upward of 100, and many Indians have been brought into trouble."

Rhinelander Affected. "Superior, Ashland, Eagle River, Hurley, Rhinelander and Shawano are in the territory affected. Antigo is just outside."

### LIBRARY NOTES.

One of the recent books which will be of special interest to club women is "The Woman Who Spends," by B.J. Richardson. It is a study of woman's relation to the spending problem. In as much as social economics is coming more and more to be a woman's problem, this little book ought to be of general interest.

Selden—Elementary Cabinetwork. This work makes clear, through definite directions for making the articles illustrated, the general principles of furniture construction, so that they may be applied in making other articles from designs found in trade journals and elsewhere. Especially for manual training students.

Williams—How it is Made. Another one of the popular books by this writer, taking up the manufacture of steel, armour plates and big guns, locomotives, motor cars, watches, money, photographic plates and many other things of everyday interest.

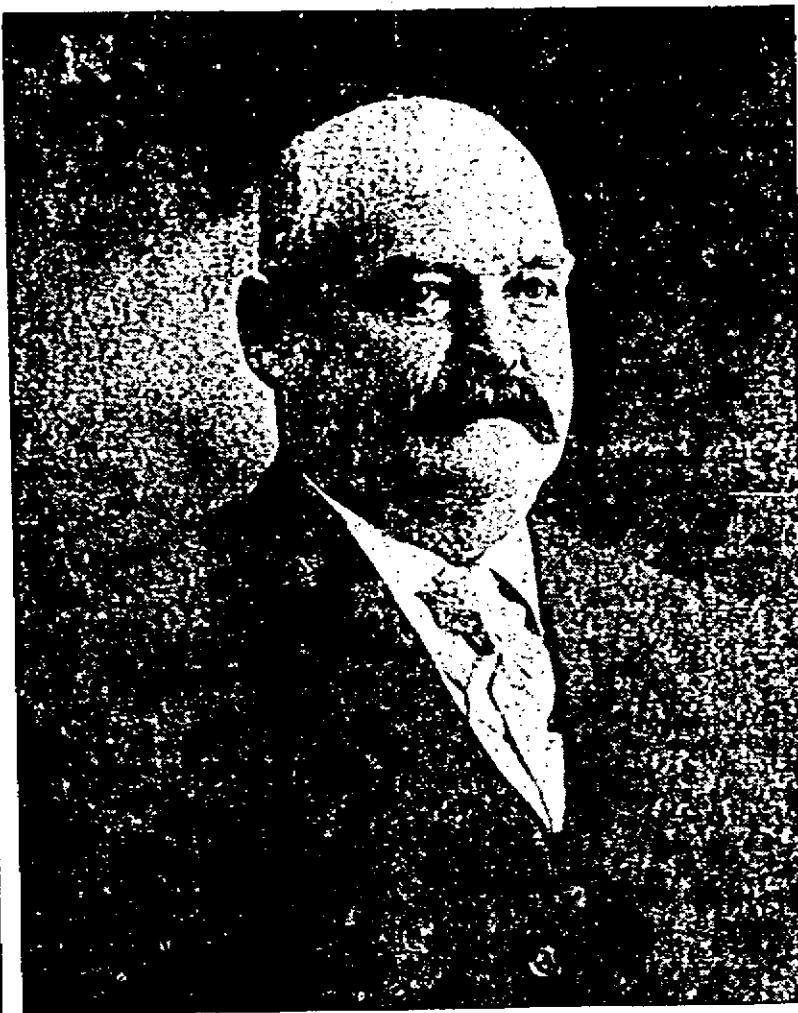

Fiction. Lee—Simon Tetlow's Shadow. Lee—Happy Island.

## FARM LANDS GAIN RAPIDLY

### Census Bureau Reports Give Wisconsin Agricultural Property Big Gain.

The below figures are from a report issued by the census bureau which also gives other facts regarding agricultural industry in Wisconsin.

The excellent showing of 65 per cent is given as the increase of the value of farm buildings in Wisconsin during the ten years between 1900 and 1910 the value going from \$155,615,000 to \$258,099,000. The improvement in the value of farm lands was 71 per cent over the \$330,443,000 valuation of 1900. The number of farms is given 176,546 with an average of 119 acres to the farm and the average value of land with buildings is \$27 per acre and of land without buildings \$43.

The total value of farm lands and buildings is \$1,197,558,000. In the course of the last year \$19,044,000 was expended for farm labor against \$10,459,000 expended in 1909.

### MONEY TO LOAN.

We wish the farmers in Oneida County a happy and prosperous year for 1911, no fires, no drought—we also wish them to bear in mind that we make a specialty of loaning money to farmers on long time, why not buy that 40 or 80 adjoining you that you have wanted for some time; we will take a mortgage on both places if security is ample. We loan from \$200 up. Call and see our agent B. L. Horr, he will be glad to talk the matter over with you.

### NEW GUN IS DEADLY.

A new gun which for general effectiveness is said to be the most terribly destructive weapon ever invented, is now being secretly manufactured in the Springfield Armory for the use of the United States.

### CHAS. W. FRICKE, DISTRICT ATTORNEY.

## STATE DEER PARK PROPOSED

### Annual Report of State Game Warden Rickerman Recommends Game Preserve

State Game Warden C. W. Rickerman in his annual report to the governor, recommends the establishment of a deer preserve in the northern part of the state consisting of ten thousand acres.

He will also favor a law fixing heavy penalties for the shooting of deer and confining the shooting to bucks. The idea is to establish the boundary of the preserve by wire with plenty of openings for the animals to pass in and out.

He wants the penalty for shooting deer to be especially severe. The department records show that during the season just closed about five thousand deer were shipped and from three to five thousand more were killed but not shipped.

Strong pressure is being brought to bear on Governor-elect McGovern for the re-appointment of Rickerman.

## WILL DESIGN STATUE FOR DOME

### Wisconsin Girl Has the Commission For Making New Colossal Figure

Miss Helen Farnsworth Meers, sculptress, has the honor of winning the commission for designing the colossal figure which is to surmount the dome of the beautiful new state capitol at Madison.

This is especially appropriate, as Miss Meers is a native of Wisconsin and received her early education and first enthusiasm in the public schools of this state.

She was one of the favorite pupils of Augustus St. Gaudens, who frequently spoke in the highest terms of her ability.

### STATE'S DIGNITY EMBODIED

The figure, which Miss Meers is to make at once, will be sixteen feet high. Its material of bronze and colored to agree with the gray granite of which the state house is being built.

Her idea of the power and dignity of her native state is embodied in this majestic statue which she has planned. Although the figure is clad in Greek draperies in order to harmonize with the classic architecture of the building which it is to adorn, its face suggests more of the middle West than of ancient Hellas. The cheek bones are broad and prominent the chin resolute and the nose firm and straight.

### BADGER ON HELMET

On the head "Wisconsin" wears a closely fitting helmet ornamented with the representation of a badger. The coat of arms of the state is sculptured on the shield placed by the side on which the left hand rests. The right hand clasps a symbol of the law, a slender staff, on which is perched a small eagle. From the staff grow olive leaves, signifying that peace comes from the observance of the law.

Miss Meers will begin work at once upon the task of casting the image in bronze.

### Owes Much to Oshkosh.

Helen Farnsworth Meers, the most notable artist Wisconsin has produced, first saw the light in a farmhouse a few miles north of this city about forty years ago. As a child Miss Meers took to clay modeling and many were the figures and images, some grotesque and some attractive, that the little miss turned out.

It was chiefly through the advice of the faculty of the Oshkosh normal school that the woman who has achieved fame both in the United States and in Europe was induced to make a profession of art. She studied in Chicago and New York and later in Paris and other art centers of the old world.

Miss Meers' first great success was the designing of the statue "Genius of Wisconsin," which was accepted in competition for the world's fair at Chicago. She also designed the Willard statue, the gift of the State of Illinois to Statuary Hall Washington.

## PROFITS MADE IN EXPRESS BUSINESS

### Big Returns Made Considering the Percent Paid the Railroads,

Attorney General Byers of Iowa has filed with the railroad commission an argument in which he gives figures to show that the companies have made exorbitant profits on their business.

The reports of the four big companies show that for 1909 they had a combined income of more than \$102,000,000 and a net profit of more than \$11,000,000. The companies pay from 40 to 57 per cent of the gross receipts to the railroad companies. It is figured that some of the companies make an annual income of 125 per cent on the value of their equipment as given in the company reports.

## KANSAS IDEA ON BOY SCOUTS

### Prof. E. L. Holton Plans To Establish Rural Life Camp Of Instruction

The New North sees much in the Boy Scout idea that must necessarily be of benefit to the lad but there are a few things, if dwelt upon, we fear, would be harmful, but we are open to conviction and from week to week, are looking for material or both sides of the question.

This week we take an extract written by A. E. Winship, one of the best educational speakers and writers in America, in which he tells what good has been accomplished in Kansas under E. L. Holton, professor of rural education.

Mr. Winship says: "Kansas Agricultural College, under the lead of E. L. Holton, professor of rural education, is aiming to establish a Boy Scout company in every community in Kansas. It enrolls all boys from twelve to twenty. It may contain six or more boys.

"Every summer there is to be a Rural Life Camp of Instruction which they may attend. At this 'camp of instruction' there are games and athletic contests; contests in judging farm crops and stock; in naming birds, wild animals, fish, flowers, trees, and shrubs; reporting on savings bank accounts.

"The first year all scouts pledge themselves to try to know by sight and call ten common birds; know by sight and track ten common wild animals; know by sight five common game fish; in the field ten wild flowers; by leaf, bark, and general outline, ten common trees or shrubs; sixteen points of the compass; the elementary rules for preventing typhoid fever; plant and cultivate according to the latest scientific methods not less than half an acre of some farm or garden crop; own and care for, according to latest scientific methods, some type of pure bred domestic animal; maintain a bank account of not less than \$15.

"The second year substitute twenty for ten; elementary rules for tuberculosis; substitute one acre for half an acre.

"The third year know by sight and call fifty common birds; know by sight and track all wild animals of that section; all common game fish; twenty-five wild flowers; all common trees; twenty-five common weeds; cultivate not less than two acres; maintain a bank account of \$25.

"This certainly means business for the boy scouts of Kansas.

"Kansas Agricultural College is leading the world in getting all rural life boys in line, or will lead the world when the plans of Professor E. L. Holton, professor of rural life, are uniformly adopted.

"There are 160,000 rural life boys in Kansas, and Professor Holton has set about organizing a Rural Life Boy Scouts company in every school district in the state. It acquaints the boys with the secrets of the prairies, the streams, and the forests, and teaches them to read nature as well as books. It encourages thrift, develops enterprise, and magnifies the good in life and in character.

It is a mighty work that Mr. Holton has undertaken, but he will make good because he has made good in every place he has been and in every work he has undertaken.

If anyone wishes to contribute to this question from either standpoint, we shall be glad to publish the article.

### FOLEY'S KIDNEY REMEDY—

#### AN APPRECIATION.

L. McConnell, Catherine St., Elmira N. Y., writes: "I wish to express my appreciation of the great good I derived from Foley's Kidney Remedy, which I used for a bad case of kidney trouble. Five bottles did the work most effectively and proved to me beyond doubt it is the most reliable kidney medicine I have ever taken."

## TRAPPER FOUND DEAD

### Old Woodsman Who Had Long Made His Home Near Bradley Meets Death Alone

Ole Olson, an old trapper, sixty years of age, who has made his home near Bradley Jct. for the past ten years was found dead in his shanty last Saturday afternoon.

Olson, who was in the habit of calling after his mail at Bradley, had not put in an appearance for the past three weeks. Section men, who know him became alarmed at his non-appearance, went to his home to see what had become of him. The body was found lying across the bed as if it had fallen there and it is thought that life had been extinct about three weeks. The horse had broken loose from its fastenings in the stable and had been feeding from a hay stack near the house.

Peter Doyle of this place was notified but on his arrival the body had been removed to Tomahawk where interment will be made.

**Superior and Duluth Back of  
Project--To Be Held Near

The Twin Ports, Superior and Duluth, are back of a scheme to organize a tri-state fair to be held at some convenient place near one of the two cities. The selection will doubtless be Superior as the level land is nearly all on that side of the bay.

The two cities are working together to make the project go and they plan to have an industrial and agricultural fair along the lines of state fairs and the proposition should be a good one for northern Wisconsin, Minnesota and Michigan, as the plan

is to include that state. Superior has a site of about six hundred acres which she will give to boost the project and that should be a big start.

**L. B. Billings Who Resided Here  
Up to Five Years Ago,  
Passes Away.**

Advices have been received here by friends of the death of L. B. Billings of Marshfield, Oregon.

Mr. Billings up to some five years ago had resided in Rhinelander and thence went to Marshfield, where he resided until his death.

The deceased was born at Middlebury, Vt., about sixty years ago and was engaged in lumbering in his earlier years. In 1891 he moved to this city and for the next fourteen years was identified with business life of the town in a quiet way.

Mr. Billings' word was unquestioned and his business integrity was always held in high regard. He was domestic in tastes, enjoying his own fire-side and his books to the fullest degree. He is survived by a wife and one daughter, Mrs. Colonel Bronson of Chicago.
